

THE HERPETOLOGICAL JOURNAL

Volume 12, Number 1 2002

CONTENTS

Review

- Microsatellite markers in amphibian conservation genetics R. JEHLÉ & J. W. ARNTZEN 1

Full papers

- A new sibling species of the anuran subgenus *Blommersia* from Madagascar (Amphibia: Mantellidae: *Mantidactylus*) and its molecular phylogenetic relationships F. GLAW & M. VENECEZ 11
- When crowded tadpoles (*Rana arvalis* and *R. temporaria*) fail to metamorphose and thus fail to escape drying ponds J. LOMAN 21
- How does a newt find its way from a pond? Migration patterns after breeding and metamorphosis in great crested newts (*Triturus cristatus*) and smooth newts (*T. vulgaris*) J. C. MALMGREN 29

Short Notes

- The occurrence of the arthropod endoparasite, *Raillietiella namibiensis* (Pentastomida: Cephalobaenida), in the lungs of agamid lizards, Windhoek, Namibia N. J. L. HEIDEMAN 37
- Diet composition of *Liolaemus bibrionii* (Iguania: Liolaemidae) in southern Rio Negro Province, Argentina L. C. BELVER & L. J. AVILA 39
