

THE HERPETOLOGICAL JOURNAL

Volume 15, Number 4 2005

CONTENTS

Papers presented at the BHS Scientific Meeting, 'Ecology and Conservation of British Snakes', 29 November 2003

- | | | |
|---|---|---------|
| Close encounters of the worst kind: patterns of injury in a population of grass snakes (<i>Natrix natrix</i>) | P. T. GREGORY &
L. A. ISAAC | 213-219 |
| Geographic variation in diet composition of the grass snake (<i>Natrix natrix</i>) along the mainland and an island of Italy: the effects of habitat type and interference with potential competitors | L. LUISELLI, E. FILIPPI &
M. CAPULA | 220-230 |
| <i>Full papers</i> | | |
| Taxonomic chaos in Asian ranid frogs: an initial taxonomic resolution | L. CHEN, R. W. MURPHY,
A. LATHROP, A. NGO,
N. L. ORLOV, C. T. HO &
I. L. M. SOMORJAI | 231-243 |
| The effects of shelter availability and substrate quality on behaviour and post-metamorphic growth in three species of anurans: implications for captive breeding | P. T. WALSH &
J. R. DOWNIE | 245-255 |
| Diverse types of advertisement calls in the frogs <i>Eupsophus calcaratus</i> and <i>E. roseus</i> (Leptodactylidae): a quantitative comparison | R. MÁRQUEZ,
M. PENNA,
P. MARQUES &
J. P. S. DO AMARAL | 257-263 |
| Egg mortality and early embryo hatching caused by fungal infection of Iberian rock lizard (<i>Lacerta monticola</i>) clutches | P. L. MOREIRA &
M. BARATA | 265-272 |
| The reproductive biology of <i>Salamandrina terdigitata</i> (Caudata, Salamandridae) | F. DELLA ROCCA,
L. VIGNOLI &
M. A. BOLOGNA | 273-278 |
| Trophic eggs in the foam nests of <i>Leptodactylus labyrinthicus</i> (Anura, Leptodactylidae): an experimental approach | C. P. A. PRADO,
L. F. TOLEDO,
J. ZINA &
C. F. B. HADDAD | 279-284 |
| The role of relief in local abundance patterns of the spur-thighed tortoise <i>Testudo graeca graeca</i> in south-east Spain | J. D. ANADÓN,
A. GIMÉNEZ,
I. PÉREZ,
M. MARTÍNEZ &
M. A. ESTEVE | 285-290 |
| <i>Short Notes</i> | | |
| An examination of <i>Pipa parva</i> (Anura: Pipidae) from native and invasive populations in Venezuela | G. J. MEASEY &
R. ROYERO | 291-294 |
| Seasonal changes in the thermal environment do not affect microhabitat selection by <i>Psammodromus algirus</i> lizards | J. A. DÍAZ,
S. CABEZAS-DÍAZ &
A. SALVADOR | 295-298 |
